

**AGENDA**

**May 4, 2006**

**Education Support Center, Mt. Evans Meeting Room**

**Adams 12 Five Star Schools**

1500 E 128<sup>th</sup> Ave

Thornton, CO 80241

**8:30-9:00 Refreshments**

**9:00-9:15 Introductions and Approval of Minutes**

**9:15-10:15 Renewable Energy Opportunities for Schools**

Jeff Scott from SolSource will be speaking about possible opportunities for incorporating renewable energy sources such as photovoltaics on school buildings. Included in his presentation will be case study information and ROI and payback calculations.

**10:15-10:45 EPA, OEMC, Xcel**

Our friends from the above three organizations will have a brief opportunity to update us on their activities.

**10:45-11:00 Fall CASBO Conference Discussion**

CASDEM now has one breakout session instead of two and we need to finalize who our speaker will be and what the topic should be. Additionally, we should discuss how the joint meeting with CSPMA is working out and if we would like to continue trying to align our activities with theirs during the conferences.

**11:00-11:15 General Discussion on Direction of CASDEM**

It seems that recently we have not had the attendance at our meeting that we have had in the past. What does the group think is contributing to this and what can we do to get some more participation going forward? This is an important discussion that should be had at least annually.

**11:15-11:30 Vice-Chair Elections**

**11:30 Lunch and Open Discussion**

**Next Meeting:**

**September CASBO Conference**

Location and Times to be announced later
